Art Unit: 1655

The response to the restriction received 7/14/05 and the IDS received 10/17/03 have been entered. Claims 1-24 are considered here.

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. Please update the specification regarding the status of related applications.

An attempted search of the present claims reveals the claimed method contains a number of distinct inventions requiring further restriction because the independent claim 1 lacks any point of novelty.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 4, 17, 22, 23, drawn to testing cells.
- II. Claims 2, 24, drawn to a protein coated bore.
- III. Claim 3, drawn to bore coated with endothelial cells.
- IV. Claims 5, 6, 7, 10, 13, drawn to multiple fluids and channels.
- V. Claim 8, 11, 14, drawn to preventing diffusion.
- VI. Claims 9, 12, drawn to a restricted entry.
- VII. Claims 15, 16, drawn to a bore coated with silicone.
- VIII. Claims 18, 19, drawn to multilaminar flow.
- IX. Claims 20, 21, drawn to two microchannels.

Art Unit: 1655

The inventions are distinct, each from the other because:

Inventions I-X are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility such as performing different assays. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
